

DIRECTOR/SENIOR MANAGER SUSTAINABILITY PROGRAM MANAGEMENT (F/M/D)

AUFGABEN

- Lead the Sustainability Project Management Office to position TÜV SÜD as a sustainability thought leader and strengthen internal sustainability capabilities.
- Shape and direct the global sustainability services portfolio, implementing strategic initiatives to enhance leadership and market strategy.
- Develop and drive strategic initiatives across business units and regions, managing resources, timelines, and stakeholder communication.
- Steer the implementation of the global sustainability strategy, establishing governance and processes for operational excellence.
- Build collaboration platforms, fostering strong networks and ensuring alignment across divisions and regions.
- Conduct comprehensive research and track global market developments and regulations to inform and enhance sustainability service positioning
- Communicate with senior leadership, motivate employees, and support the acquisition of lighthouse projects.

QUALIFIKATIONEN

- University degree in management, finance, environmental science, or engineering.
- 5+ years of strategy consulting experience at a client-facing level.
- 3+ years of sustainability project experience, ideally in decarbonization strategy & technology (e.g., carbon management, renewable energy, energy infrastructure).
- Excellent project management skills in multi-stakeholder, multi-geography environments.
- Strong analytical, conceptual, and data handling skills, with advanced Excel and PowerPoint proficiency.
- Proven ability to lead, inspire, and manage teams effectively.
- Excellent communication skills in German and English, with strong interpersonal, storytelling, and conflict management abilities.

WEITERE INFORMATIONEN

We are looking for dynamic individuals to join the Sustainability Program Management team within the Corporate Sustainability Office. This team plays a crucial role in shaping and executing TÜV SÜD's global sustainability strategy, focusing on growing the sustainability service portfolio and driving operational excellence.
